

FORK EXTENSIONS

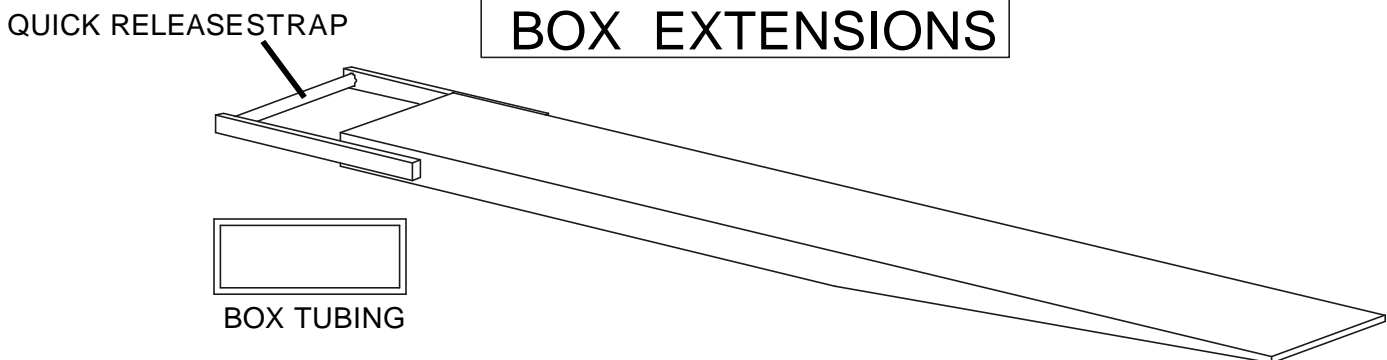

Superior Engineering Fork Extensions are available in various widths, lengths, capacities, and strap types. All have 12" of taper and a tip thickness of 1/2".

Standard Extensions are manufactured of structural channel and are available with standard or quick release pin type straps.

Heavy Duty Extensions are reinforced with steel straps down each side. Standard or quick release straps are available

Box Extensions are manufactured of structural tubing and have additional capacity. Pin type quick release straps are standard.
